

# HYD09388

## Lift Cylinder, UTV, Straight & V-Plow

Direct replacement for the HYD07022

- 10" Stroke, 15.75 retracted length, 1.181" rod 1.772" ID (Bore)
- Pull type cylinder (work is performed as cylinder retracts the rod into the tube)
- Normal resting position - cylinder extended
- should be stored in the retracted position during the off season
- Maximum operating pressure 2500 PSI
- If cylinder is leaking, replace cylinder as **seals are not servicable.**
